

Inclusive Excellence

The Department of Social Work is committed to promoting a more inclusive and equitable society, beginning with respectfully engaging diversity and difference within our learning environments. Our goal is to prepare social workers who are intentional and reflective in promoting diversity, equity, and inclusion in their work.

This effort is grounded in our Department's mission to educate professional social workers who will promote the well-being of the vulnerable and oppressed, and will advance social, economic, and environmental justice for all people. Social workers aim to reduce marginalization based on, but not limited to, age, (dis)ability, race, ethnicity, gender, sexual orientation, socioeconomic status, nationality, and religion. Our Department's efforts are also grounded in the National Association of Social Workers' values of social justice and dignity and worth of the person, and its cultural awareness and social diversity standard. Finally, we see our work in this area as an embodiment of ASU's Inclusive Excellence Initiative, and the Beaver College of Health Sciences' core values of diversity, equity, and community.

Our work is ongoing and we are all learners. We encourage an ongoing dialogue among students, faculty, and staff about this commitment. Your participation and feedback in the process is valued.
